THE COMPANY

# Aesthetics in the bathroom is our passion

We are always searching enthusiastically for new forms, new materials and new technologies. Searching for the perfect synergy of the sensible and the sensuous.

The impressive thing about KEUCO products is their excellent design, ease-of-use, and technical sophistication. At the heart of every new product from the full provider of quality bathroom furnishings is the goal of constant improvement.

# Quality with tradition

Premium design, consistent concepts, meticulous craftsmanship, perfect functionality and peak longevity are what set KEUCO apart. KEUCO can look back on a long tradition of manufacturing high quality products for the bathroom.

Since its founding in 1953, the company, which is still family-run today, has continuously expanded its range of products. Originally a specialist and market leader for premium bathroom accessories, today

KEUCO views itself as full provider of bathroom furnishings, with plants in Hemer, Gütersloh and Bünde in Germany.

The full assortment encompasses a total of more than 6000 different products in the categories of fittings, accessories, light and mirrors, mirror cabinets, washbasins and bathroom furniture. All KEUCO products are developed, planned, and built in Germany and exported worldwide from the headquarters in Hemer.

DESIGN

# Bathroom furnishings at their best

Since KEUCO's founding in 1953 design and function have always played a decisive role.

Products must combine aesthetic form with sensible functionality – a standard that is systematically applied, from the idea right to implementation. Collaboration with designers is a long tradition at KEUCO. Already back in the 70s KEUCO worked with Luigi Colani and produced accessories, lights and mirrors for the famous "Colani bathroom", the first complete bathroom, which was developed in collaboration with Villeroy & Boch and Grohe. Further notable designers such as Matteo Thun, Christoph Ingenhoven, Reiner Moll and Dominik Tesseraux followed. Many of KEUCO's innovative bathroom furnishing concepts and products are recipients of notable design awards, such as the Red Dot Award, the Design Plus Award, the German Design Award, the IF Design Award and the Iconic Award.

DESIGN PLUS

# Made in Germany

More than 93% of KEUCO's products are manufactured in Germany. The know-how the domestic plants possess with their highly-skilled employees is the foundation of our consistently quality-oriented production. Roughly 5% of the products are produced in the EU and around 2% in non-EU countries.

To be able to compete in the long term, all KEUCO products are subject to the same high-quality standards and are produced according to our specifications, subject to the strictest of quality assurance measures and controls.

Aside from our successful mass-produced products, our production facilities are also capable of manufacturing tailor-made solutions for larger/ commercial projects.

HIGH QUALITY  
**MADE IN GERMANY**

# Regional and responsible

The attitudes and actions of businesses are increasingly influenced by changes to society and social responsibility. In addition to economic and social interests, the ecological aspect plays an increasingly important role. That is why we need to take responsibility every day, face the challenges of the future, and shape them actively. Developing sustainable solutions for bathrooms has been part of KEUCO's corporate philosophy already for years – not just for the products themselves, but also for each individual step of production. For us, this is the only way to develop and manufacture products for this generation and those to come, and protect jobs.

“Sustainability is one of the five supporting pillars of KEUCO's corporate strategy. We have adopted the economic, ecological and social aspects of sustainability as part of our mission already in many areas. We owe it to subsequent generations to continue down the path we have taken, to face up to the issues and actively shape the future. The financial future can only be assured by acting in an ecological way.” Lubert Winnecken, Managing Director KEUCO GmbH & Co. KG.

Key aspects of our commitment to sustainability are the products themselves. That is why we offer fittings, for example, that, thanks to their flow rate limiter, save water, which means energy, too. Our high-quality products are

designed in such a way that satisfaction is guaranteed even after years of use. And should a problem occasionally occur, our spare parts service always has a solution. We also take care to ensure that our assortment of products is broad enough to include items that people of any age and constitution can use. This is what we consider to be sustainable products.

In our production we use energy as efficiently as possible, and materials as sparingly as possible. This is backed up among others by our own cogeneration plant and by the use of energy from photovoltaic systems. Working as partners with suppliers from the vicinity also produces positive effects. We obtain 90% of our materials and semi-finished products directly from the local region – at a distance of maximum 200 km. Here we use a variety of reusable trays, so transportation packaging can be completely done without in many cases. Another aspect of our materials management is an efficient waste-prevention system in production, and strict quality controls at all stages of the value chain. This is what we view as sustainable production.

Other sustainability factors of particular importance to us include recycling, employee development and social involvement in the region and beyond.

EDITION 90

# Freedom of pure form

Bathroom furnishings that express opulent use of form with a strong emphasis on the material. The clear design statement in the 90-degree angle establishes linearity. Washbasin and furniture act as soloists, allowing completely individualised arrangements. For freedom in bathroom design.

Without compromise, the design concept is reiterated in every aspect of the chrome-plated fittings. Like a tower forged from a single piece, an unmistakable character of utmost exclusiveness takes centre stage.

EDITION 400

# Our concept of design freedom

Considered objectively, EDITION 400 from KEUCO is merely a modular system for modern bathroom furnishing. But, bathrooms are more about emotions and your sense of wellbeing. And this furnishing concept, which was developed by the Tesseraux + Partner design agency and is the recipient of renowned design awards, offers a multitude of combinations and configurations, to lend expression to your individuality. So, relish the freedom and explore the possibilities.

IXMO

# Less can do more

Combining functions together produces a completely unique design approach. Together with KEUCO developers, the designer Dominik Tesseraux (Tesseraux+Partner) created a multiple award-winning design icon. The reason why IXMO's design is so consistently minimalistic is because the functionality is so compactly integrated.

# IXMO

## FITTINGS

In addition to in-wall solutions for shower and bath tub, the product family was systematically expanded to include fittings for washbasin and bidet. Together with the extensive shower accessories, the result is a consistently minimalistic design throughout the whole bathroom, for a maximum in creative leeway.

- 1 IXMO Pure bath tub mixer
- 2 IXMO Pure single-lever basin mixer
- 3 IXMO single-lever mixer, 2-way stop and diverter valve with wall outlet for shower hose
- 4 IXMO Pure single-lever bidet mixer

## BLACK SELECTION

What would a bathroom be like without the matching accessories? In bathroom design, high quality bathroom accessories are essential to a harmonious overall picture.

In matt black they add the final touch to the design and complete the furnishing concept. They are clever everyday heroes, they set special accents, and assist you as inconspicuous servants and convenient helpers. PLAN offers accessories with exactly such details, the kind one hates to do without – both for private bathrooms as well as for bathrooms in hotels and other buildings of all kinds. The design classic among the accessories with fashionable look.

# PLAN CARE

Demand for accessible bathroom concepts is growing. Despite physical handicaps it isn't necessary to do without functionality in top-notch design. PLAN CARE is KEUCO's bathroom assortment for an extra in comfort and safety, for both public as well as private facilities. Intelligent solutions, integrated functionality and individual design features guarantee bathroom furnishings that convince both ergonomically as well as aesthetically. Here, no detail has been overlooked!

- 1 PLAN CARE tip-up seat for hooking onto grab bars in railing system
- 2 PLAN CARE WC drop-down supporting rail and grab bar

**INTEGRAL**

For sanitary facilities in public buildings, users require a good level of convenience and reliable functionality, and the people in charge count on aesthetic solutions that can withstand heavy use – and do not require extensive upkeep for daily operation. The PLAN INTEGRAL furnishing range reconciles these requirements. The system of built-in wall modules for washbasin and WC impresses not only with its robust construction, cleaning-friendliness and easy refilling, but also with its elegant and low-key design.

MOLL COLLECTION

# The new timelessness

The MOLL COLLECTION is an homage to the love of excellent design. Its name pays homage to Reiner Moll, someone who has been involved with KEUCO for a long time and who gave this collection its face. The slender, low-key design gives the MOLL COLLECTION its lightweight and timeless beauty. So it is a perfect match for KEUCO's many washbasin and furniture series.

REVA

# The perfect fit

The practical little helpers in the bathroom: They may not be front and centre, but if they weren't there at all, you would miss them. For perfect functionality and individual bathroom design, it's the small things that ultimately make the difference. REVA means "the one that connects", and as a combination of design and function, it truly lives up to its name.

COSMETIC MIRRORS

# The perfect view for the perfect make-up

# COSMETIC MIRRORS

## PLAN

The PLAN cosmetic mirror is always ready for use. It is as easy to operate as a hand mirror. Through the double hinge integrated discreetly in the design it can be adjusted to any desired position. It is not even necessary to touch the mirror head. With the long swivelling arm it is simply placed flat against the wall again after use.

- 1 Chrome
- 2 Aluminium-finish
- 3 Black matt

## COSMETIC MIRRORS

### iLook\_move

Available in round or square form, KEUCO's iLook\_move cosmetic mirror leaves nothing to be desired. With a simple motion of the hand the height, distance, and vertical and horizontal angle can be set to the ideal position. The illuminated model with elegant glass control panel has two different light modes: daylight and warm white. The LED light source is long lasting and power consumption is low, but it is still completely glare-free.

- 1 iLook\_move, square, illuminated with control panel
- 2 Glass control panel
- 3-5 iLook\_move, round, non-illuminated

**iLook\_move**

For particular convenience there is the illuminated iLook\_move with rocker switch. It has a light colour of 6500 kelvin, and is switched on and off directly on the cosmetic mirror. The mirror is also easy to install, since the plug and the rocker switch are integrated and all that is needed is a simple power supply. If desired, the light can also be operated by a room switch.

SHOWER SHELVES

# Stylish structures

KEUCO shower shelves are genuine designer items with added functional value. They offer a lot of space, and with their white or grey-black powder-coated aluminium finishes, they are also stylish daily heroes. Two wall-mounted models are complemented by a hook-on shelf for the shower, visually enhancing the bathroom. The modern, rectilinear design matches virtually any style of furnishings, making the KEUCO shower shelves suitable for universal use.

# Disinfection with a distinctive design

Everyday hygiene is an important part of staying healthy. Hand hygiene is important everywhere large numbers of people meet and come in contact with the same door handles or objects. Rule number one: frequent hand-washing. Those looking for additional protection can use sanitisers. Also ideal for spontaneous hand-hygiene needs.

ROYAL MODULAR 2.0

# Architectural versatility

Modern, reduced and straightforward is how the new interpretation of the popular ROYAL MODULAR mirror cabinet series presents itself. The individual choice of widths, heights and depths makes it the perfect storage space and a visual treat in every bathroom setting. With its intelligent LED lighting concept, highly functional technology, customisable storage space and cleverly designed details it is a genuine multi-talent.

ROYAL MODULAR 2.0 is available in a whole range of formats: With one, two, three or four doors, it fits in bathrooms of all sizes and matches every washbasin. It can be installed recessed in the wall to save space, or mounted as a design element on the surface. With its high-quality anodized aluminium body, it is unsusceptible to wetness and moisture, so it is particularly long lasting. The premium mirrors on the inside and outside of the doors ensure a clear reflection in every respect.

# High-end lighting solution

An illuminated LED rim on three sides turns the ROYAL LUMOS mirror cabinet into a genuine highlight in the bathroom – whether as classic on-wall mirror cabinet or unconventional semi-recessed model. The LED light radiating from within the translucent rim on three sides gives the mirror cabinet a lightweight appearance, as if it is hovering in front of the wall. The open shelf compartment effectively places favourite items at the centre of focus.

## ROYAL LUMOS LIGHT MIRRORS

For luxurious and high-quality bathroom furnishing, the ROYAL LUMOS light mirror is the furnishing highlight. The washbasin isn't the only thing perfectly lit by the powerful illumination of the surrounding LED rim. Perfect illumination of the face and the perfect light for any time of the day and atmosphere are also among its strengths. As an option, a practical mirror heater is available, which ensures fog-free visibility after showering.

STAGELINE

# Cosy setting

With the STAGELINE furniture collection, a cosy atmosphere finds its way into the bathroom. The visual highlight of the series is an open, illuminated storage shelf, perfect for showcasing decorative items and favourites. STAGELINE presents itself with modern linearity and straightforward elegance in tone-in-tone look. The glass fronts and furniture bodies are always monochrome, emanating calm and harmony.

PLAN

# Style across the board

The integral architectural approach of the PLAN bathroom furniture series is evident in every detail. Discreet linearity characterises the bathroom furniture, washbasins and light mirrors. From the body to the glass fronts, the light mirrors and even the delicate base support, the design and colour concept developed by the Tesseraux + Partner design agency in Potsdam is omnipresent. Available in the colours truffle, cashmere, inox, white or anthracite, each piece has an uncompromisingly modern appeal.

# A classic material with a new look

Glass is a proven classic in discerning bathrooms: hygienic, resilient, and simply attractive. By combining it with appealing colours, in the ROYAL REFLEX bathroom series it is enjoying a revival. Whether in strong and stimulating tones or more discreet colours: With its lacquered rear surface the glass captivates with a brilliancy of colour that lasts for decades. ROYAL REFLEX reiterates this brilliancy in a wealth of colour variations across washbasins, bathroom furniture, light mirrors and mirror cabinets, complementing any stylistic context they grace.

The new ROYAL REFLEX.2 mirror cabinet seizes on the uncompromising look of its predecessor and scores extra points with innovative technology and new features. In addition to the front illumination across the entire width, the ROYAL REFLEX.2 mirror cabinet now has an additional light source: By illuminating the washbasin, the fitting is highlighted in a particularly attractive way. The 1300 mm double washbasin models have LED lights for two fittings. The KEUCO rotary dimmer now replaces the rocker switch. Positioned on the underside of the body, it can switch between three different lighting modes and also dim the light intensity.

ROYAL 60

# Pure clarity

Developed by the renowned Tesseraux + Partner design agency, the ROYAL 60 furnishing concept presents itself as the essence of clarity, linearity and purity. With a buoyant feel, the trim design shuns intrusiveness and discreetly harmonises with your individual expectations on contemporary bathroom design. Its formal minimalism establishes calm, and accentuates the geometry of its surroundings. Untouched by time and trends in fashion, this design thrives on understatement. ## ABOUT KEUCO

KEUCO GmbH & Co. KG is an internationally active, full provider of premium bathroom furnishings. KEUCO offers a large assortment of fittings, accessories, mirror cabinets, lights and mirrors, washbasins and bathroom furniture "made in Germany".

At KEUCO, design and function play a key role. Perfectly manufactured products combine aesthetic form with sensible functionality. A standard that is systematically applied, from the idea right to implementation.

Collaboration with designers is a long tradition at KEUCO. The company has been family-operated since its founding in 1953. Its headquarters are located in the Westphalian city of Hemer.

The extraordinary surface characteristics and extremely fine colour nuances of our products can only be reproduced to a certain degree in print. Only the original KEUCO products can provide an optimal impression. They can be seen in the showrooms of sanitary trade dealers. Reproduction and copying, even if only excerpts, are only permitted by express permission of the manufacturer, and with the inclusion of source information. KEUCO GmbH & Co. KG, PO Box 1365, D-58653 Hemer

We expressly reserve the right to make technical changes for the purpose of improvement, as well as colour and design changes that are deemed necessary. Print errors and omissions excepted.
