YOUR GROHE KITCHEN EVERY DAY

GROHE is cooking up a storm in the kitchen. With designs to match all styles of interior, all installations and all budgets, our enticing portfolio of kitchen faucets will exceed your expectations.

Just as a great meal combines beautiful presentation, fresh ingredients and nutritional value, our faucets perfectly balance quality, technology and design. Using only the finest materials and the latest industry-leading technologies, GROHE kitchen faucets deliver years of reliable performance – day in, day out.

An appetising mix of product features makes light work of daily tasks and will impress even the most reluctant home chefs. And a generous seasoning of practical features, such as pull-out sprays and mousseur, low-pressure models and faucets for pre-window installation, ensures all of your needs are covered.

Fusing award-winning design with innovative functionality, our Premium Lifestyle Collections appeal to passionate people who settle for nothing less than perfection. Our successful K7 kitchen faucet range is the choice of home chefs who want superb style and professional performance.

Our latest addition is GROHE Minta Touch. With its innovative EasyTouch technology, it instinctively reacts to the slightest touch, simply and cleverly, with just the back of your hand, wrist or forearm. Minta Touch stays clean, when your hands are not.

GROHE Performance kitchen lines offer a wide choice of spout heights and product features, making them the ideal choice for family kitchens. Coordinating ranges of bathroom faucets and fittings are also available, to create a cohesive look throughout your home.

Our Kitchen Water Systems – GROHE Blue® and GROHE Red™ – redefine what is possible in the kitchen. By delivering instant filtered, chilled and boiling water straight from the faucet, they achieve a new level of function and convenience. And now we are delighted to offer GROHE Blue® in two more GROHE designs, K7 and Minta, to ensure it complements all styles of kitchen.

For functionality, innovative features and award-winning design, GROHE is the connoisseur's choice, every time.

David J. Haines

THE GROHE KITCHEN

Water is used for cooking the world over. We need running water in the kitchen up to 90 times each day. We take it so much for granted that we often don't think of water when we hear the word 'kitchen'. We think of well-filled refrigerators, aromas wafting from the oven and of tables laid ready for dinner. But we forget what works hardest in the kitchen: the kitchen faucet. Something that is used this frequently must be durable – and since kitchens are increasingly becoming living spaces, it also has to look good. That's why ergonomics, functionality, aesthetics and durable finishes are so important in GROHE kitchen faucets.

GROHE's promise to you is that you will have it easy. For a lifetime.

High-quality materials, outstanding design and innovative technologies ensure that your GROHE faucet will last a lifetime. Our faucet levers feature GROHE SilkMove® technology, making them extremely easy and precise to operate even with greasy hands. Intensive daily use leaves its traces. Normally. However, GROHE StarLight® chrome resists scratches and ensures a lifelong glossy finish. And if you like the look of stainless steel, you'll love our SuperSteel® finish. For professional-level endurance choose RealSteel®, made from solid stainless steel. However, it's not just with lifelong, perfect function that GROHE impresses in the kitchen, but also with form and finishes that please the senses.

True style shines through in daily life.

From modern, Cosmopolitan single-lever mixers, through our timeless Contemporary lines to the Authentic style two-handle faucets, you will find exactly the right faucet to match your aesthetic ideals. Countless designs and spout heights give you huge scope when choosing your kitchen furniture and sink; while pre-window models, integrated dishwasher shut-off valves and low pressure variants ensure there's a model to meet all of your installation requirements.

Professional sprays for home use.

Many of our models are available with pull-out mousseurs and sprays, a convenient and time-saving feature when rinsing salad leaves or washing greasy pans. Even with intensive use of the faucet. And you will be amazed at the adaptability and flexibility of our side and professional sprays.

Tap water takes its place at the table.

GROHE serves you top-quality drinking water directly from the faucet – from cold to boiling hot. For filtered, chilled and carbonated water, choose GROHE Blue® Chilled & Sparkling. The GROHE Blue® Pure filter system is perfect for those who like still, non-chilled water. GROHE Red™ delivers boiling water directly from your faucet, without the wait. For a quick pasta meal, for a hungry baby, for a coffee now and again and so much more.

One-touch convenience

The new Minta Touch stays clean when your hands are not. Thanks to innovative EasyTouch technology, you simply touch the faucet at any point with the back of your hand, wrist or forearm to turn it on and off.

PURE FREUDE AN WASSER MOMENTS OF TRUTH

Ongoing investment in research and development allows us to turn world-leading technologies for bathrooms and kitchens into reality. Our products have been created to last a lifetime, to be both easy and intuitive to operate and to make the use of water a pleasure.

GROHE SilkMove®
Smoothest handling for effortless precision and ultimate comfort for a lifetime.

GROHE StarLight®
Made-to-last surfaces ranging from precious matt to shiny like a diamond.

GROHE CoolTouch®
No scalding on hot surfaces thanks to 100% GROHE CoolTouch®.

GROHE EcoJoy®
Save precious resources and enjoy 100% water comfort.

GROHE Digital®
Intuitive digital technology at your fingertips.

BlueCore™ by GROHE
The distinctive blue-coloured components at the heart of GROHE products highlight GROHE's leading performance and quality.

HANDS ON GROHE KITCHEN FEATURES

Accommodating your every wish and desire, GROHE water systems and kitchen mixers include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

SideSpray
The spray is mounted to the side of the faucet.

SpeedClean
Remove lime scale with a single wipe.

SmoothTurn
Extra smooth movement of all swivel spouts for easy handling.

SwivelStop
Limited turn angle prevents flooding.

ComfortHeight
Height of the spout allows easy filling of large pots.

OpenWaterHeater
The perfect flow in combination with open water heaters.

HandCrafted
These exquisite pieces are refined and hand-polished by skilled artisans.

ExtensiveRange
A wide choice of designs to meet your functional and installation needs.

RealSteel
Made of solid stainless steel – a robust material with anti-bacterial properties.

StopValve
Includes a dishwasher shut-off valve on the faucet body.

PreWindow
To open the window, just lift up the faucet and lay it flat on the surface.

ChildLock
Integrated safety mechanism prevents unintentional opening by young children.

Pull-out Mousseur
Increases the operating radius of your faucet.

Pull-out Spray
Increases operating radius of the faucet and offers different sprays.

ProfessionalSpray
Features a 360° spring arm and easy switching between the spray and mousseur.

Titanium Inside
All boilers in our GROHE Red™ collection are made from titanium.

EasyTouch
Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

Enhanced Water
Superior-quality water direct from the kitchen faucet – saving time, money and the environment.

GROHE PREMIUM LIFESTYLE COLLECTIONS

GROHE treats the kitchen with the respect it deserves. It's so much more than just a workspace. It's where you spend most of your time, it's the heart and soul of your home and it's often furnished to a correspondingly high standard. That's why GROHE kitchen faucets deliver more than you expect in every respect. The workmanship, durability, innovation and design will satisfy more than just those with an appreciation for beauty. Home chefs who demand the same functionality as professionals sum up the characteristics of GROHE kitchen faucets in just one word: perfect.

GROHE K7 / K7 F-DIGITAL

A fusion of crisp, architectural styling and professional attributes, the K7 collection appeals to culinary experts who settle for nothing less than the best.

And now, the innovative of GROHE K7 F-digital, anyone who wants unrivalled performance in the kitchen can enjoy a new level of comfort and convenience. A single touch is all it takes to start and stop the water flow from your kitchen faucet. And thanks to wireless digital technology, the digital controller can be fixed in a convenient and ergonomic location. In front or to the side of the sink bowl, on the splash back or next to the base of the spout – we let you decide.

GROHE K7 F-DIGITAL NEW

GO ONLINE

K7 F-digital fuses the latest technology with award-winning design, resulting in a kitchen faucet that is ergonomic, convenient and water efficient.

Unlimited Flexibility

Place the Digital Controller wherever you want. The surface-mounted controller is battery powered, so there's no need to drill a second hole in the work surface.

Save Water and Energy

Use the Pause function while cleaning up or rinsing dishes to help reduce your water and energy consumption.

The Perfect Temperature at a Glance

A ring of coloured light on the controller gives you visual feedback as you change the water temperature.

Personalise the Experience

Once you've found your perfect combination of water temperature and flow, use the memory function to save your settings.

Convenience and Safety

The flow of water stops automatically after an individually pre-set time. This smart function enables you to fill a sink at the touch of the button and, for total security, prevents overflows and flooding.

GROHE MINTA TOUCH

The GROHE Minta Touch has so many amazing features, you'll fall in love instantly. It fights dirt, germs and bacteria. It's operated by the slightest touch, simply and cleverly with just the back of your hand, wrist or forearm.

Design and function are also perfectly aligned, with the safety of little ones in mind. That's because Minta Touch is absolutely safe, with no risk of scalding, as the EasyTouch function works only with cold water.

Prefer warm water with your touch function? Simply upgrade Minta Touch with our Grohtherm Micro. This small thermostat underneath your sink gives you your perfect temperature every time, with no risk of scalding.

GROHE Minta Touch will also save you plenty of cleaning time, as the lever remains spotless and bacteria-free all day, every day – regardless of the number of helping hands you have in your kitchen.

1. GROHE Minta Touch – beautiful and functional.

2. Dirty hands? Clean fittings.

3. Activate

4. Clean hands, clean fittings.

EASY-TO-USE

Just touch the spout or body to turn the faucet ON or OFF.

CLEAN AND HYGIENIC

Your faucet stays clean when your hands are not: Start the faucet with your forearm or wrist to avoid cross contamination and to keep your faucet clean.

FUSION OF DESIGN AND TECHNOLOGY

Invisible technology meets outstanding design.

SAFE FOR CHILDREN

The EasyTouch function is great for providing cold water. A simple upgrade that adds our thermostatic mixing valve, Grohtherm Micro, adjusts the water temperature with no risk of scalding.

GROHE MINTA TOUCH LOVE AT FIRST TOUCH

GO ONLINE

Modern, timeless, beautiful, innovative. GROHE's successful kitchen range, Minta, takes the next step on the innovation ladder.

The GROHE Minta Touch comes with a small but distinctive difference. With its innovative EasyTouch technology, it instinctively reacts to the slightest touch.

One tap of the Minta Touch with the back of your hand, wrist or forearm is all it takes to turn it on or off, thus keeping the faucet clean and hygienic at all times. EasyTouch technology is invisible yet maintains the gorgeous looks that made you fall in love with the Minta.

Choose your mixer from the curved C-shaped swivel-spout with pull-out spray or the striking L-shaped swivel spout with pull-out mousseur.

GROHE ZEDRA

A contemporary kitchen also makes the time we spend in it more enjoyable. It has to run like clockwork so that you can enjoy your time in the kitchen and still have time for other important tasks. GROHE Zedra is perfect in this respect.

GROHE ZEDRA

Zedra combines contemporary design and maximum functionality with proven reliability for rigorous everyday use. The body flows elegantly into the wide swivel spout – a classic example of the GROHE design aesthetic – and now comes with an improved mechanism for retracting the pull-down spray.

Limescale on the flexible pull-out sprays can be easily removed thanks to the SpeedClean nozzles. Zedra comes in two high-quality finishes: our high-gloss GROHE StarLight® chrome or the durable GROHE RealSteel with anti-bacterial properties. Whichever you choose, GROHE SilkMove® will ensure long-lasting smooth movement.

Master chefs are used to having specialists at their disposal for all tasks. From the saucier to the pâtissier, they can call on a perfectly coordinated team. It's actually no different in your kitchen. It's just that your team is much more compact: a single multi-tasker, the GROHE K4 kitchen faucet.

You can easily meet all the requirements in your kitchen with the K4 series. The gently curved shape with 360° swivel spout and a pull-out spray with SpeedClean® for easy removal of limescale from water nozzles guarantee reliable and convenient operation - ensuring more freedom in your daily kitchen tasks.

From a technical point of view, the GROHE K4 impresses with true robustness. GROHE SilkMove® guarantees smooth movement, even after years of hard use. And the GROHE StarLight® chrome finish will keep your faucets shining like new for years to come.

Classic dishes are just as delicious today as a hundred years ago. This won't change in the next hundred years either, since good taste is as enduring as the design of the GROHE Atrio faucet. The individual look of the elegant two-handle faucet with arched spout or single-lever sink mixer with L-shaped spout lends GROHE Atrio a timeless quality that will add a refined edge to any kitchen style. The Bauhaus-influenced design with stepped escutcheon, slim mixer body and a tubular spout can be carried on throughout the house, thanks to a coordinating collection of bathroom faucets.

Also timeless is Atrio's glossy finish. GROHE StarLight® chrome provides lasting protection against dirt and scratches. Also enduring is the high ease of operation afforded by the smooth GROHE SilkMove® technology.

GROHE EUROPLUS

Europlus balances a modern appearance with intelligent ergonomics. The sculptured lines of the body, enhanced by the GROHE StarLight® chrome finish, run seamlessly into the lever and radiate style. The lever is set at a slight angle of seven degrees to simplify handling and is extremely easy to operate thanks to GROHE SilkMove® technology. The medium spout height will accommodate the largest of pans, while the pull-out spray is an extra help for ambitious chefs. The low-pressure version means that GROHE Europlus is compatible with all water supply systems. The range also includes a version with separate dishwasher shut-off device as well as a version for installation in front of a window.

GROHE EURODISC COSMOPOLITAN

In the same way that a great meal is a result of carefully balancing flavours, textures and nutrition, your kitchen faucet should be a balanced combination of design and practical features. Well considered details that work for you and the installation requirements of your kitchen. Fortunately, Eurodisc Cosmopolitan offers enough choice and design nutrition to satisfy the most demanding chefs.

GROHE EURODISC COSMOPOLITAN

GO ONLINE

In developing Eurodisc Cosmopolitan, we thought about people who are not so easily satisfied. These discerning individuals will recognise the attention to detail and nuances. The high-gloss chrome finish elegantly emphasises the tapered edges. You can expect the same perfection in the functionality of the faucet as in the form.

You can choose between three different spout heights, different versions and countless installation options. Whatever choice you make, you are guaranteed an attractive appearance and easy operation over the lifetime of the faucet, thanks to GROHE SilkMove® cartridges and GROHE StarLight® chrome finish.

GROHE CONCETTO

Like the finest desserts, Concetto is a visual feast for the eyes on the outside and a tempting delight on the inside. Whether it's the choice of spout shapes or the mix of practical features, which delight at every turn, the collection mixes all the essential ingredients required to add the finishing touch to your kitchen.

GROHE CONCETTO

Concetto combines stylish minimalist design with superior ergonomics to reflect the core values of the Cosmopolitan design. Consisting of a series of cylinders, an arched or medium height spout rises elegantly from the sink. Its purist beauty is highlighted by the high-gloss GROHE StarLight® chrome finish which repels dirt and prevents tarnishing. GROHE SilkMove® technology enables fingertip control of water flow and temperature. And all with an unbeatable price/performance ratio.

GROHE EUROSTYLE COSMOPOLITAN

No two kitchens are the same. What works in one environment is not necessarily right for another, which is why we offer kitchen faucets with different spout heights and with or without pull-out sprays. And this level of choice is just one of the reasons why Eurostyle Cosmopolitan is the perfect addition to kitchens with style and Cosmopolitan flair.

GROHE EUROSTYLE COSMOPOLITAN

GO ONLINE

Eurostyle Cosmopolitan will play a leading role in your kitchen – and not just in terms of functionality. With a choice of three spout heights it also sets the tone for the design of your kitchen.

Two unique GROHE technologies, GROHE SilkMove® and GROHE StarLight®, guarantee years of smooth operation and a durable glossy finish. With its wide range of different models, the collection will meet all of your needs, whatever they may be. Low-pressure models, versions with a pull-out mousseur and with a dishwasher shut-off device as well as faucets that can be installed in front of a window are available.

Eurostyle Cosmopolitan also complements the architecture of your kitchen and leaves nothing to be desired.

GROHE EUROSMART COSMOPOLITAN

In an over-complicated world, sometimes it's nice to keep things simple. Freshly-cut crudités dipped in aioli or a bowl of strawberries with a splash of balsamic vinegar – with fine ingredients a 'less is more' approach works best. And this is the approach we took when designing Eurosmart Cosmopolitan, focussing only on the essentials and giving them a fresh Cosmopolitan twist.

GROHE EUROSART COSMOPOLITAN

GO ONLINE

The new Eurosmart Cosmopolitan collection of kitchen faucets combines the clean, geometric lines of modern architecture with durable technology. They offer an impressive balance of modern aesthetics and excellent ergonomics. The swivel spout is convenient and easy to use – the ideal complement to any sink.

Proven technologies such as GROHE SilkMove® for precise and smooth control and the high-gloss GROHE StarLight® chrome finish ensure the functionality and a flawless appearance, even after many years of use. The GROHE EcoJoy™ version of the Eurosmart Cosmopolitan kitchen faucet effortlessly saves water and energy. GROHE EcoJoy™ reduces the maximum flow rate to 5.7 litres per minute – although it will feel like much more. And all with an unbeatable price/performance ratio.

GROHE EURODISC

With its clean lines and contemporary styling, the Eurodisc mixer combines practical features with smart looks – bringing a host of benefits to your kitchen. Finished in GROHE StarLight® chrome, the design is also available with GROHE EcoJoy™ – reducing water consumption to a maximum of 5.7 litres per minute.

A swivel spout makes light work of daily chores, while the fin-shaped lever can be operated using just two fingers – thanks to GROHE SilkMove® technology.

GROHE WATER SYSTEMS

GROHE WATER SYSTEMS

GROHE Blue® is fitted with filter technology that transforms ordinary tap water into pure fresh water without the aftertaste of heavy metals, limescale or chlorine. Convenient and eco-friendly, the filter cartridge purifies up to 600 litres of water and is easy to replace. The faucet, which delivers either filtered or unfiltered water at the twist of a lever, is finished in GROHE StarLight® chrome for enduring good looks.

GROHE BLUE®

FILTERED, CHILLED AND SPARKLING

Water is the most fascinating of all the elements on our planet. And water preferences can be as individual as taste in design. With GROHE Blue®, we can cater to your exact tastes. Do you like your water still, lightly sparkling or sparkling? Filtered directly from the fitting in your own kitchen? Your wish is our command.

GROHE Blue® combines outstanding design and innovative technology. A high-performance filter, cooler and carbonator deliver a pure taste experience – just as easily as using a standard kitchen fitting. The temperature and intensity of the water flow are regulated as usual using the fitting's operating lever, while the left rotary knob with integrated LED display regulates the carbonic-acid content of the filtered and chilled water.

But maybe you also want your faucet to express your taste in design? With GROHE Blue® technology, you get four outstanding fitting designs. Choose between the classic GROHE Blue® with C- or U-shaped spout, the GROHE Blue® K7 or the GROHE Blue® Minta.

If you do not want to give up your tried-and-tested kitchen fitting but still want to enjoy the benefits of the GROHE Blue®, we have another solution for you: the 'Mono' version of GROHE Blue®.

The Mono pillar tap can be simply installed on your worktop in harmony with your existing kitchen fitting. The best thing about this tap? It is designed to make filling containers like the GROHE Blue® carafe child's play – for a refreshing, individual taste experience.

Following huge demand for a GROHE Blue® with pull-out spray function, we are pleased to announce that the GROHE Blue® K7 is now also available with a separate pull-out spray to make working in the kitchen even easier.

More taste

GROHE Blue® premium kitchen faucets feature a revolutionary high-performance filter that removes the impurities that affect the taste and odour of ordinary tap water – heavy metals, chlorine and limescale – and so delivers the clean, refreshing taste that is expected from bottled mineral water. Two separate internal waterways – one for filtered water and the other for unfiltered water – and an innovative mousseur ensure that once the water has been filtered it never comes into contact with anything that may taint its taste.

More convenience

The unique GROHE Blue® water systems deliver fresh, great-tasting filtered water from the convenience of your kitchen faucet whenever you want it – 24 hours a day, 7 days a week. An LED display on the faucet handle indicates when the water filter needs to be changed. The light flashes when the filter capacity is less than 10%. The filter lasts up to 12 months, has a capacity of 600 litres and can be adjusted to the hardness of the water. The GROHE Blue® Pure Starter Kit comprises the faucet, an under-sink filter and a GROHE Blue® glass carafe whose elegant form reflects the purity of the water.

Less environmental impact

GROHE Blue® combines convenience and a healthy lifestyle in one environmentally-conscious package. Compared to the pollution and energy consumption caused by filling and transporting bottled mineral water, filtering tap water has a negligible environmental impact. GROHE Blue® saves resources and money, since seven litres of water are needed to put just one litre of bottled water on a supermarket shelf. Energy is also saved, as heavy bottles no longer need to be carried home and time and resources spent recycling them.

GROHE BLUE® CHILLED & SPARKLING ULTIMATE REFRESHMENT

GO ONLINE

Still, lightly sparkling or sparkling water? GROHE Blue® Chilled & Sparkling combines the modern look of a designer faucet with a high-performance filter, cooler and carbonator – and is as easy to use as an ordinary kitchen faucet. The right lever on the faucet is used to mix hot and cold tap water as usual. The left rotary knob with integrated coloured LED display regulates the carbonic acid content of the filtered and chilled water. The light flashes when the filter capacity is less than 10%.

The carbonator integrated in the built-in box adds especially fine bubbles of carbonic acid to the filtered and chilled water to produce lightly sparkling or sparkling water according to taste.

GROHE RED™

Boiling hot water. In the past you would have needed a pot or kettle, now it comes directly from the faucet. The innovative GROHE Red™ boiler system keeps four to eight litres of boiling water (depending on the boiler version) ready for immediate use at all times.

Cooking pasta

Making tea and coffee

Removing the skin from tomatoes and other fruit

GROHE RED™

The water's boiling!

Take a moment to count up just how many times you need boiling water in the kitchen. When you're looking forward to a nice cup of tea, when you want pasta in tomato sauce this instant, when the baby's crying with hunger but the bottle is not sterilised yet. This list goes on...

With GROHE Red™, you can draw 100 °C water directly from the faucet without having to wait. Up to three or six litres depending on the size of the boiler. Simple. Economical. And with a responsible energy balance.

GROHE RED™

GROHE Red™ has been designed to accommodate the needs of all users and all types of installation. The collection features two sizes of faucet: Duo and Mono and two sizes of boiler: 4 litres and 8 litres. The larger Duo model replaces a standard kitchen faucet – enabling you to draw boiling hot water in addition to regular mixed water. When combined with the large boiler, it is ideal for kitchens without a hot water supply. The smaller Mono faucet supplies boiling water only and is the perfect companion to a GROHE Blue® water system.

GROHE CoolTouch®

GROHE CoolTouch® technology insulates the faucet so well that you can touch it without any risk at all. Even for those little fingers that sometimes touch things they shouldn't. Our engineers have found a solution to childhood curiosity and grown-up absentmindedness.

ChildLock

ChildLock does not rule out the possibility of scalding from 100 °C water, but it does make it practically impossible: for the boiling water to flow, you must first pull and then turn the left handle. This child-resistant feature has been independently tested and certified.

GROHE Red™ Titanium Boiler

All boilers in our GROHE Red™ collection are made from titanium. Unlike stainless steel and copper, two metals traditionally used for boilers, titanium is highly resistant to corrosion and limescale build-up – ensuring perfect performance over a lifetime.

Titanium is also bio-compatible, hence why it is used in medical applications e.g. surgical instruments and implants. And as it imparts no metallic taste to the water, the boiling water that comes out of your GROHE Red™ faucet will always taste exactly the same as it did before entering the boiler.

GROHE Red™ pays off. For you and the environment.

GROHE Red™ proves that convenience and environmental awareness do not have to be mutually exclusive. In contrast to a water boiler or boiling water on a hob, with our innovation you only heat as much water as you need. This saves water, energy and even costs. In basic mode, GROHE Red™ boilers cost just 10 cents* a day to maintain the water at 100 °C once heated.

*Based on the average power costs for 2011 in Germany, depending on ambient and water temperature

NEW IN THE OFFICE: GROHE WATER SYSTEMS GROHE BLUE® AND GROHE RED™

Both innovative GROHE water systems complement each other perfectly.

For economic use in the office, we recommend the combination of GROHE Blue® and GROHE Red™.

So everything required in the office kitchen is available immediately and with the utmost efficiency:

- Filtered, chilled and sparkling tap water
- Boiling water
- Regular cold/hot mixed water

Here are innovative, stunningly simple solutions for every office:

GROHE Blue® turns ordinary tap water into pure refreshment from the office's incoming water source. Water is chilled and emerges as still, lightly sparkling or sparkling – completely according to taste. The innovative water system is fitted with a filter that is concealed under the sink and removes the heavy metals, limescale, suspended particles, chlorine and other impurities that can impair taste and odour. Conventional tap water simply cannot compare with the fine taste of GROHE Blue®.

GROHE Red™ simplifies life and speeds up the workflow. More hot drinks are consumed in the office than anywhere else. From now on, nobody needs to wait for the kettle to boil. So GROHE Red™ saves time. GROHE Red™ proves that convenience and environmental awareness do not have to be mutually exclusive. In contrast to a kettle or boiling water on a hob, you only heat exactly as much water as you need. This saves your company water, energy and costs.
